

Router Raizer Access Point

Drill .500" hole
through router
table insert plate

install #30 dust cover insert
into .500" hole and press flush
with top of insert plate

**NOTE: This hole must be drilled 1/2" or .500"
for #30 dust cover insert to fit properly.**

Use this 6" scale to check accuracy when copied

TRITON TRC 001

Note: Cross lines for locating and drilling holes are accurate. The illustration of subbase may vary slightly in size and design, but is accurate enough for cutting the rubber gasket if required.
